Information for patients Footwear Adaptations

Footwear Adaptations

Your consultant and orthotist have prescribed adaptations to your own footwear to manage your condition orthotically.

The following guidelines will assist you in choosing suitable footwear:

- Shoes must have a lace closure, strap or hook and loop fastening
- The shoe/boot should have a solid sole unit, i.e. not air sole trainers
- The more simple the sole, the easier it will be to adapt and the neater it will look
- The upper of the footwear should enclose the heel i.e. no mules or sling backs
- Heel height of 1¼" (30mm) maximum and heel width of 2½"(65mm) minimum
- If you are buying new footwear do so on approval of it being suitable for adaptation

footwear

Female

Repairs

Please keep your footwear adaptations in good repair. You can return them to the Orthotics department to have the repairs done, e.g. for worn soles/worn sockets. They can be dropped in or posted, please ensure you include your name and address with the items. We will contact you when they are ready for collection. This will usually be done in around two weeks depending on the adaptation being carried out.

What happens next?

Once we are sure your adaptation is appropriate and you have no problems, you are entitled to a further adaptation in the first year and then two adaptations per year afterwards. If you require more than this you will need to fund it yourself.

Contact the Orthotic department to find out how to do this. Should you have any queries regarding your footwear please do not hesitate to contact us.

We provide the clinical service for orthotics at The Robert Jones and Agnes Hunt Orthopaedic Hospital, Oswestry, The Royal Shrewsbury Hospital and The Princess Royal Hospital, Telford. Please find the relevant contact details below.

Please only contact the department where you are due to have an appointment or have already been seen, other sites will not be able to deal with your enquiry and you will be asked to ring the appropriate hospital.

The Robert Jones and Agnes Hunt Orthopaedic Hospital / Tel: 01691 404442
